

Department & Team Structure Blueprint

Strategic Framework to Build, Develop, and Maintain the Website cum Fleet Business

Enterprise: Kalidass Travels
(Chennai, TN)

Domain: Taxi, Airport Transfers, Outstation
& Tours

Architecture Version: 1.0
(Comprehensive)

Executive Objective: Transform Kalidass Travels from an offline operator into a modern, digitally driven travel brand where the high-performance Astro website directly powers inquiry capture, automated quoting, dynamic fleet dispatch, and 5-star customer retention.

1. Organizational Structure & Core Departments

To operate profitably and smoothly, the business is structured into five interdependent departments linking digital client acquisition to on-ground transport execution.

Department 1: Technology & Digital Product (Website Engine)

Mission: Maintain a high-speed, mobile-first web application that converts visitors into phone calls and WhatsApp bookings.

1.1 Web Developer / Technical Lead

KPI: 99.9% Uptime • <1.5s Load Time

- Maintain Astro static & server-rendered pages, Tailwind CSS styling, and React interactive calculators.
- Optimize Core Web Vitals (LCP, CLS, INP) for Google ranking advantage.
- Maintain conversion widgets: Click-to-WhatsApp, Instant Fare Calculator, and PDF quote generator.
- Oversee hosting, Cloudflare DNS, SSL security, and GitHub CI/CD deployments.

1.2 UI/UX Designer & Content Specialist (Freelance / Part-Time)

KPI: High CTR on "Book Now" • <35% Bounce Rate

- Design eye-catching tour package cards (Temple tours, Ooty/Kodaikanal getaways, Airport drops).
- Create driver ID cards and fleet showcase photos for transparency and trust.
- Ensure mobile thumb-zone ergonomic placement of call and chat buttons.

Department 2: Digital Marketing, SEO & Local Growth

Mission: Dominate search engine results in Chennai/Tamil Nadu for high-intent cab and tour keywords.

2.1 Local SEO & Google Business Profile (GBP)

Manager

KPI: Google Local 3-Pack Rank • Organic Call Growth

- Manage Google Business Profile: daily photo uploads, customer review responses, local citations.
- Implement structured Schema Markup (TaxiService, TouristTrip, LocalBusiness, FAQ).
- Expand programmatic route pages (e.g., Chennai Airport to OMR, Chennai to Tirupati Cabs).
- Maintain listings on Justdial, Sulekha, Indiamart, and local business directories.

2.2 Performance Marketer (Google Search Ads & Meta Ads)

KPI: ROAS > 4.0x • Low Cost per Qualified Lead

- Run high-intent Google Search Ads (e.g., "urgent airport cab chennai", "innova outstation rental").
- Run targeted Facebook/Instagram campaigns for weekend temple circuits and festive vacation packages.
- Track conversion cost and route leads straight to the WhatsApp booking desk.

Department 3: Operations & Fleet Dispatch (Execution & Delivery)

Mission: Guarantee verified, clean, punctual vehicles with polite professional chauffeurs for every confirmed trip.

3.1 Fleet Operations Manager & Dispatch Controller

KPI: 100% On-Time Pickup • Zero Missed Rides

- Allocate vehicles (Sedan, Ertiga, Innova Crysta, Tempo Traveller) according to passenger requirements.
- Coordinate flight arrivals at Chennai Airport, monitoring delays and gate terminal shifts.
- Maintain an emergency contingency protocol with standby vehicles for breakdowns or driver delays.

3.2 Driver Relationship & Quality Executive

KPI: Driver Rating > 4.7/5 • 100% Document Compliance

- Onboard and verify drivers (commercial badge, police verification, FC, commercial insurance).
- Maintain driver profile data displayed on the website's verified driver directory.
- Enforce vehicle hygiene standards (AC working, clean upholstery, sanitizer, non-smoking policy).

3.3 Professional Chauffeurs & Acting Drivers (Field Staff)

KPI: Polite Etiquette • Safe Highway Driving

- Punctual reporting in proper attire (uniform/formal).
- Safe, defensive driving on highways and temple tour circuits; assist passengers with luggage.

Department 4: Sales, Customer Experience & Booking Desk

Mission: Convert website clicks into paid bookings within 2 minutes and deliver a seamless travel experience.

4.1 Booking & Reservations Executive (WhatsApp & Tele-Desk)

KPI: Response Time < 2 Mins • >35% Conversion

- Instant response to incoming website calls, WhatsApp pings, and quote calculator submissions.
- Provide transparent quotes using official tariff policies (driver beta, toll/parking, night charges).
- Issue official PDF booking confirmation receipts and collect advance token payments.

4.2 Customer Experience & Reputation Executive

KPI: Google Review Rate > 25% of Completed Trips

- Send driver name, contact, and vehicle details to passengers 2 hours prior to scheduled departure.
- Perform mid-trip check-ins for multi-day temple or outstation packages.
- Send instant post-trip review links requesting 5-star Google ratings; resolve complaints within 24 hours.

Department 5: Finance, Administration & Legal Compliance

Mission: Maintain accurate cash flow, on-time driver settlements, GST compliance, and regulatory adherence.

5.1 Accounts & Billing Specialist

KPI: Zero Billing Disputes • On-Time Weekly Settlements

- Issue GST-compliant invoices for corporate car rental clients and B2B contracts.
- Reconcile daily trip revenues, driver fuel/beta allowances, and commission shares.
- Manage digital infrastructure subscriptions (hosting, domain, CRM, telephony).

5.2 Transport Legal & Compliance Advisor (Consultant)

KPI: 100% Legal & RTO Compliance

- Ensure All India Tourist Permits (AITP) and inter-state tax documentation are up-to-date.
- Review website Terms of Service and Privacy Policy for regulatory alignment.

2. RACI Responsibility Assignment Matrix

Defines exactly who is Responsible (R), Accountable (A), Consulted (C), and Informed (I) across core business workflows.

Core Workflow / Activity	Web Dev	SEO/Ads	Sales/Desk	Operations	Driver	Finance
New Tour / Route Landing Page Launch	R	A	C	I	-	-
Updating Tariffs & Fares on Website	R	I	C	A	-	C
Instant WhatsApp / Phone Inquiry Handling	-	-	A/R	C	-	-
Vehicle Allocation & Trip Dispatch	-	-	I	A/R	R	-
Emergency Breakdown / Cab Replacement	-	-	I	A/R	R	-
Google Review Collection & Follow-up	-	A	R	C	I	-
Corporate Invoicing & B2B GST Billing	-	-	C	I	-	A/R
Paid Ads Budget & ROAS Monitoring	I	A/R	C	-	-	C

3. Standard Operating Procedures (SOPs)

SOP 1: Inbound Lead to Advance Booking (2-Minute Rule)

1. Customer clicks WhatsApp button or calls from the website.
2. Desk Executive acknowledges within 120 seconds using pre-saved quick reply templates.
3. Request details: Pickup location, Destination, Date/Time, Passenger count, Vehicle preference.
4. Generate official quotation using the website tariff calculator logic.
5. Customer confirms → send UPI QR code → receive token → issue PDF confirmation.

SOP 2: Trip Dispatch & Departure Protocol

1. 6 Hours Prior: Dispatcher verifies assigned driver and vehicle availability.
2. 2 Hours Prior: Customer receives automated SMS/WhatsApp with driver name, phone number, vehicle number, and model.
3. 15 Minutes Prior: Driver arrives at pickup point and marks arrival.
4. Trip Start: Odometer reading recorded and shared on group/system.

SOP 3: Reputation & Google 5-Star Review Engine

1. Within 60 minutes of trip completion, CX Desk sends a warm thank-you message.
2. Include a direct one-click link to Google Business Profile review form.

3. If customer rates 5 stars, thank them publicly within 24 hours.
4. In case of grievance, Operations Manager calls customer immediately to resolve and provide compensation if appropriate.

4. Phased Growth & Hiring Roadmap

Phase 1: Lean / Bootstrapped (1 – 3 Core Team Members)	Phase 2: Growth Stage (5 – 8 Full-Time Members)	Phase 3: Scale Enterprise (12+ Team Members)
Target: 5–15 trips/day	Target: 20–50 trips/day	Target: 75+ trips/day & B2B
• Owner / Founder: Overall strategy, corporate sales, and finance. • 1 Booking Desk Exec: Manages calls, WhatsApp, and vehicle dispatch. • Freelance Web Dev & SEO: 15–20 hrs/month for Astro website updates and local SEO. • Fleet: 100% attached vehicles/drivers.	• 1 Fleet Dispatch Manager: Dedicated shift coordinator. • 2 Booking Executives: 2 shifts covering 6:00 AM – 11:00 PM. • 1 In-house Digital Marketer: SEO, Google Ads & social campaigns. • 1 Accountant: Daily trip settlement and driver payout. • Retainer Web Dev: For feature additions & automation.	• Full-Time Tech Lead & Designer: In-house web and mobile apps. • 24/7 Operations Desk: 3 rotating dispatch shifts. • Corporate B2B Sales Lead: Contracts with IT parks, hotels, airlines. • Quality Auditor: Weekly vehicle inspections and driver training.

5. Recommended Software & Technology Stack

Domain	Recommended Tool	Strategic Purpose
Website & Infrastructure	Astro, React, Tailwind, Cloudflare	Sub-second load times, global CDN caching, zero server downtime.
Customer Chat & Leads	WhatsApp Business API (Wati / Interakt)	Shared team inbox, automated quick quotes, booking confirmation dispatch.
Telephony & Call Routing	Exotel / MyOperator	Single business hotline number, call recording, missed call tracking.
Lead Management (CRM)	Zoho CRM or Google Sheets + AppSheet	Pipeline tracking (New Lead → Quoted → Booked → Completed).
Fleet Telematics	Fleetx / Trackon GPS	Real-time vehicle location, speed monitoring, and arrival alerts.
Accounting & Invoicing	Zoho Books / Tally Prime	GST e-invoicing, corporate B2B credit cycles, driver commission ledger.
